### **Integrated Process Technologies is Now LEWA Process Technologies**

Integrated Process Technologies, Inc. has changed our name to LEWA Process Technologies, Inc. You can find our new website at [www.lewapt.com](http://www.lewapt.com) and our customer service contact is [sales@lewapt.com](mailto:sales@lewapt.com). While our name may have changed, there are no changes in the service devotion and responsiveness we provide. The effect of this name change will be seamless to our customers.

Our name change is the last step in our integration with LEWA-Nikkiso America. As a result of this integration, we have expanded our geographical presence through the network of LEWA and Nikkiso sales and engineering resources in North America, Asia and Europe. IPT, now LEWA Process Technologies, has grown to be the center of excellence for clean industries like biotechnology, pharmaceuticals and food & beverage for the LEWA global family.

LEWA Process Technologies maintains all the capabilities of IPT such as design-build, piping installation and OEM fabrication. Leveraging LEWA resources we are rapidly expanding our capabilities of design, automation and manufacturing of advanced fluid separation and mixing platforms that combine our expertise in fluid dynamics and a deep understanding of how to move critical fluids with industry-leading pump technology.

Visit our new [website](#) or follow us on [Linked In](#) for further updates to our products and services.
